# ENGLISH WELCOME OUR FLEET.

GREETING AT PORTSMOUTH IS VERY ENTHUSIASTIC.

King Sends Cordial Message-Warships Taken into the Inner Harbor, an Unprecedented Honor-Orders to Make the Visit of the Americans Memorable

Special Cable Despatch to THE SUN. PORTSMOUTH, July 7 .- The American squadron under command of Rear Admiral Cotton arrived at Spithead late last night. The channel squadron, composed of the pick of the British Navy, consisting of six battleships and four cruisers, under command of Vice-Admiral Lord Charles Beresford, was assembled in its honor. In the brilliant sunshine the contrast between the gleaming white bodies and yellow upper work of the American ships and the grim gray which is now the regulation color of British war vessels was vivid.

The American fleet fired three salutes this morning, one of twenty-one guns in honor of the nation, a second of seventeen guns in honor of Admiral Sir Charles Hotham and a third of fifteen guns in honor of Vice-Admiral Lord Charles Beresford. The salutes were answered by the forts, the flagship Victory and the British fleet. The American squadron then passed around the British fleet in a circle. The crews manned the sides and tops of the British warships, the Americans cheered and the quarterdeck bands on the British ships played "Hail, Columbia."

The Southsea Parade was thronged with cheering crowds. The warships dipped from the people. They entered the harforeign warship, and the Kearsarge went alongside the jetty dockyard. The other vessels anchored in the inner harbor

From 3 to 5 o'clock the Kearsarge was thrown open to visitors, and hundreds inspecied her from bridge to keel, openly expressing their admiration. In connection this the views of the officers in regard to the reported indignation of naval officers In the United States over Emperor William's inspection of the Kearsarge are interesting.

They dismiss the stories as ridiculous pointing out that in every foreign port Imerican warships are open from top to bottom for the inspection of visitors. A rocket was fired from the semaphore tower in the dockward at 9 o'clock, whereupon the darkness was suddenly lightened by the simultaneous illumination of the Channel squadron at Spithead, each vessel being outlined with incandescent lights, while in the inner harbor the King's yacht and several warships, including the Calliope, were similarly lighted. The American ships, in addition to being outlined in fire, displayed their names in huge

electric light letters. The most brilliant part of the display, however, came an hour later, when the searchlights began to play. By means of colored lights thrown through the lenses upon the clouds of steam escaping from the warships fantastic and beautiful designs in red, white and blue were formed, and the vessels and dockvard buildings were illuminated with striking color effects.

An immense throng watched the illuminations and paraded the streets, which were decorated with bunting, the Stars and Stripes entwined with the Union Jack. MILITARY RULES EVANSVILLE. GIRL SCATTERS A MOB.

GOV. QURBIN RUSHES TROOPS THERE TO RESTORE ORDER.

Will Put Down the Mob If It Takes All the Troops of the State-Anarchists Said to Have Led the Mob-Soldiers Have Orders to Shoot-Safety Committee Formed in Town-People Excited.

EVANSVILLE, Ind., July 7 - Eight dead, two wounded mortally and at least thirtyfive either seriously or slightly wounded, is the canvass to-night of the battle between militia and rioters at the court house and county jail last night. Most of the dead are young men. A girl, Hazel Allman. aged 15, was shot through the heart while fleeing from the scene with her parents

Military rule is enforced to-night. The city is guarded by the entire First Infantry of the Indiana National Guard under command of Gen. W. J. McKee of Indianapolis, who arrived to-day. An artillery squad is also present. Three companies are at the county jail

remainder of the city is patrolled by 100 civilian and special police. The 200 deputy sheriffs sworn in for service last night have been relieved. Some of the tension resulting from two attempts to storm the jail and lynch Robert Lee, colored, murderer of Patrolman Louis

N. Massey, has been allayed, but the public mind is still in an inflammable state from the carnage of last night. The negroes are extremely quiet and every sign of a race war has disappeared, for the present, at least. Hundreds of negroes have left the city, and those who

are brave enough to remain sleep in com-

panies of from 50 to 200. They are in a state of nervous fright. To-night the chief danger arises from excited public opinion at the presence of troops in so large numbers. Any clashes that may come are expected to result from isolated crowds of the rougher element attempting to contest military au-

thority. The city is now under control of twelve citizens, who constitute a Safety and Vigilance Committee, and who were appointed at a meeting in the Mayor's office to-day, held at the instance of Gov. Durbin.

The committee is composed of G. A. Cunningham, P. W. Frey, Alexander Gilchrist, F. P. Pozy, J. O. Parker, Major J. D. Welman, lawyers; Aaron M. Weil, L. Johnson, W. S. French and S. G. Rickwood, mercantile men; Capt. S. P. Gillette, banker, and Fred Van Orman, hotel man.

Mayor Charles J. Covert issued a second proclamation, calling upon citizens to remain at home and closing all saloons at through fear that an attempt would be noon. There is no disposition to dispute the proclamation by saloon men. The Mayor says to-night that the outcome of the next twenty-four hours is uncertain. He said:

reports of last night's fatalities decided to come here and take charge. He is exercised over the sheeting.

The sentiment of in uential men, the business and professional men, is that law and order had to be preserved at any hazard, and that the killing was justified, if forceful action was necessary to curb the people who disobeyed the Mayor's proclamation about street congregations. Damage suits approximating \$200,000 children plo is held there will be no official action against members of the militia or the deputy

The riot started with the calling of names by 500 men gathered outside the patrol lines. Several men headed a flying wedge at 10 o'clock, rushed the guards back to the jail, a distance of 100 feet from the corner where they were placed, and the leaders from the protected vestibule in Court Place, a lawyer's office building,

began to shoot.

The shooting from the citizens' ranks became general, but the military did not return the fire at once. When they did, it was sent directly into the crowd. To the deputy sheriffs, stationed on the court

house steps opposite the jail, are attributed most of the deaths.

This judgment is the result of an investigation of the wounds. The militia used rifles, while the deputies used shotguns.

Most of the men killed fell before "Court Riche" within twonty feet of the militiary. Place," within twenty feet of the military and within 100 feet of the Sheriff's menand within 100 feet of the Sherin s men.

Miss Allman was seated in a buggy 150
feet away. Her father attempted to drive
away, and as they were at a corner almost
out of range, the shot struck her. To-night the city is highly wrought up over the nu-merous unfounded rumors of deaths and attacks, set on foot, it is thought, to incite attacks upon the military. Two or three negroes have been pursued and wounded slightly.

WOMAN LED THE MOR. Wanted a Man Under Arrest Taken From the Sheriff and Lynched.

Indianapolis, July 7.—The town of Sweetzer, Grant county, was much excited last night when a mob led by a woman attempted to take U. S. Williams, a music teacher, from the custody of the Sheriff and lynch him for an alleged assault upon a young girl. The girl is the twelve-yearold daughter of Abner Beach, and when she reported to her mother that Williams had attempted to assault her, the alarm was given and some fifty men assisted the mother in her search for Williams.

Meantime the Sheriff had been notified and hurried to Williams's studio and placed him under arrest. He was just leaving the studio with his prisoner when the citizens led by Mrs. Beach appeared. Mrs. Beach pleaded with her neighbors not to let the Sheriff take Williams away alive, and she led the advance upon the Sheriff. EXPRESS RUNS INTO AN OPEN SWITCH AT ROCKFISH, VA.

Freight Was on the Siding and the Switch Not Closed-Trainmen Lose Their Lives -One Passenger Coach, in Which There Were Many Immigrants, Telescoped.

CHARLOTTESVILLE, Va., July 7 .- The Southern Railway passenger train No. 35, from New York to New Orleans, left this city, southbound, this afternoon twenty-five minutes late and at Rockfish station, twenty miles south of Charlottesville ran into an open switch colliding with local freight No. 68, killing at least twenty-four persons and wounding probably as many more. The freight train had just been shifted from the main track to the siding and the failure to close the switch led to the accident.

The locomotives were hrown from the track. The first passenger coach was telescoped by the combination baggage and express car, the latter coach, grinding along the full length of the passenger coach at about the height of the seats, crushing the life out of most of those in the car.

The work of rescue began immediately There was only one physician on the train. He was Dr. William A. Lambeth of the University of Virginia. He was the first out of the train, and organized at once a relief force.

He found Engineer Charles Davis of the bassenger train already dead, and Engineer James McCormick, who was to relieve Davis at Monroe, also lifeless. Engine man E. C. Hale of the freight was pinned down under an engine, but not hurt fatally.

The trainmen, under Dr. Lambeth's lirection, cut through the panels of the paggage and express car and took out twenty-four of the dead. Probably a score of injured were removed. No one is prepared to say that all of the dead have been recovered.

W. A. Ward, the news agent on the train, whose home is in Washington, was one of the few in the fatal coach who escaped He was standing at the end of the car when it was telescoped. ## Dr. Mazzoni Says Pope's Resisting Power Is Marvellous.

During the Day He Asked About Public Affairs and Ordered His Thanks Sent to King Edward for Inquiries About His Condition-Spoke of President Loubet's Visit to London-Asked for the Newspapers-Vatican Makes Arrangements With the Italian Gave ernment for Announcing His Death.

### Special Cable Despatch to THE SUN.

ROME, July 8.-Up to midnight there had been no further announcement since the early evening bulletins and all is quiet at the Vatican. The waiting crowds have left the Plazza di San Pietro, which is now wholly deserted.

The general belief is that his Holiness will live for many hours, perhaps days. The draining of the affected lung to-day had a good effect. His marvellous vitality was never more strikingly displayed than now, when he is face to face with death.

During the day he asked whether President Loubet of France had arrived in London, and how he had been received. This led Dr. Mazzoni to tell him that King Edward had again inquired how he was progressing. His Holiness was much pleased and asked that his thanks be tele-

During Monday night the Pope took nourishment several times. Toward midnight he said to Dr. Lapponi: "You must tell me when the last moments come." Dr. Lapponi replied: "Be at ease; there is no imminent danger."

his bed and sat in an armchair A bulletin issued at 9:20 o'clock this morning said: "The Pope passed a restless and sleepless night. An objective examination shows a change in the right thorax, and the middle lobe, which up to yesterday did not permit the passage of air, now allows the air to penetrate. On the other hand, the interior zone has become more obtuse and the transmission of vocal and tactile vibration is wanting. This leads to the belief that there is liquid in the pleura. > "MAZZONI." HOW THE OPERATION WAS PERFORMED. The Pope seemed somewhat alarmed at the prospect of an operation and asked "Will it be much?" He remarked that the occasional injections of morphine during the past three days had been very

> painful, adding: "Suppose it should complicate my illness?" Dr. Mazzoni replied that it would be

over in a few minutes. "Well," responded the Pope, "do what you want. We have confidence in you." He was then removed from his armchair to the bed, and Dr. Mazzoni, having arranged the pillows, uncovered his breast at the point of operation. Then with the little deception of professing to inspect his chest he injected cocaine before the patient was aware of what he was doing.

His Holiness did not show that he felt the least pain, and Dr. Mazzoni proceeded with the operation. The Pope did not know "It is finished," said Dr. Mazzoni.

"Is it, really?" asked his Holiness, adding:
